We believe that learning English should be an enjoyable, motivating process and encourage learners to interact in the language as much as possible. We choose stimulating topics related to the learners' interests. We focus on grammar, vocabulary and pronunciation according to their needs.

We test the young learners and group them into classes (each containing a maximum of 14 students) on the first day. We provide course materials and present certificates at the end of the course.

We invite group leaders for every 10 students (for free) to join our classes for adults. These are of mixed nationalities. We also offer them free accommodation.
